BSA Solution

RESEARCH USE ONLY

Bovine Serum Albumin Stock solution

Cat.No.	Pack	Conc.
BS-1	1ml	10mg/ml
BS-5	5ml	10mg/ml

Stability:

Shelf life 12 months if store at -20°C

CONTENT:

10mg/ml BSA in water
Sterile

DESCRIPTION**BSA Stock Solution**

Non-acetylated BSA is used in buffers for nick translation, polymerase reactions, and ligations.

Quality:

The BSA Solution is prepared in RNase / DNase free water and sterile filtered.

for Molecular Biology, RNase / DNase free

APPLICATIONS:

- PCR

As enhancing and stabilizing agent

STORAGE CONDITIONS :

Store **BSA Stock Solution** at -20°C (for long-term storage).

SHIPPING CONDITIONS:

Should be shipped at ambient temperature
